ATLANTA:

SATURDAY MORNING, FEBRUARY 5.

TO-DAY'S PROBABILITIES: For the South Atlantic and Gulf States, falling barometric, and stationary to rising temperature, with northeast to southeast winds, and clear or partly cloudy weather.

Gold opened in New York yesterday at 125 1/2 and closed at 125 1/4.

Low midmorn closed in New York yesterday at 125 1/4. In Liverpool at 6 1/2.

One thing seems to be clear, namely: That the house will receive the recommendation of the last congress. Many of most prominent hard-money Democrats of the house declare for this step.

On our legal page will be found the proceedings of the republican meeting at James' hall and the address of Colonel Akerman. It is unnecessary to make any comment this morning, but we may in to-morrow's issue.

The house committee on military affairs is working hard and making headway in the matter of the reduction of expenses. They expect to save \$600,000 a year by the bill regulating the pay and allowances of or more by other reductions in the expenses of the army.

We hope the report is not true which says that McKey will be heavily fined and saved the disgrace of imprisonment. The old gentleman made enough out of the "crooked" to pay a good fine; but our panel laws should not be construed as the state would be well situated if they had a little more elbow room.

THE DRAFT AND DUMB.

The thirteenth annual report of the draft board shows that the condition of the country is a prosperous condition. Although Cato Springs was affected with small pox last spring, no case of the disease occurred in the institution.

The trustees are overwhelmed, and the trustees appeal to the legislature to provide more room, especially as the further increase of pupils in the future is inevitable. The present wants of the institution demand buildings that would cost \$18,000.

A branch for colored deaf-mutes certainly should be established. The trustees urge it on consideration of humanity, and as an act of justice. The building of the Cherokee Wesleyan institute, adjoining the present grounds, can be bought and fitted up for the use of such pupils at an expense of \$3,500. The trustees strongly recommend its immediate purchase, believing that the present annual appropriation can, by strict economy, be made to supply the wants of both departments.

During the past year 37 males and 22 females have received instruction, a gain of 18. The last 107 pupils of the institution reported 90 families. In 46 of the 107 have brothers, sisters, or other relatives who are also deaf mutes; in one family the father, mother, and five children are deaf and dumb.

These facts and others in the report are suggestive.

The report shows that the institution cost the state last year \$15,941. The profit of the shop school was \$151. The male boys also act type for the Cato Springs Enterprise, an equal and successful monthly newspaper published under the auspices of the institution. One of the boys has become a very expert compositor. The affairs of the institution are well and economically managed, and these unfortunate children of the state would be well situated if they had a little more elbow room.

THE EAGLE AND PHENIX MILLS.

While the press gang spin theories about the profits of cotton mills and their value to a section, this great corporation is quietly and steadily proving those theories well grounded and true. The annual meeting was held this week. We need scarcely say that its affairs are prosperous. They always are.

After dividing eight per cent on the capital stock, or \$109,000, there were \$11,647 of profits left which were credited to the machinery account. The mills consumed 1,017 more bales of cotton last year than they did in 1874, and about thirty-three per cent more wool. When these facts are contrasted with those that come from the New England mills, we begin to see clearly that cotton factories amongst the cotton fields will pay when they will not elsewhere. The "Eagle" and "Phenix" say plainly, move the mills to the cotton fields, or abandon the contest. You of New England can not make money in full seasons, and we can for particulars see our annual report or enquire of our shareholders.

These mills now contain 23,500 spindles and 713 looms. The company owns a large number of idle water lots, and President Busey therefore urges an increase of their productive capacity. The master was referred to a committee of three, and if they report in favor of an increase, the directors are authorized to make the necessary contracts for new buildings. Its success leads to enlargements, to new mills and to a condition of general prosperity throughout the section which it blesses. Columbus on one side, and Augusta on the other remind Atlanta to what uses she can put her cheap coal and unequalled distribution of water.

There seems to be a coolness as it were between two leading radicals of South Carolina. Here is what Governor Chamberlain says:

"Whether it can be had opportunity to prove him the equal of Moses in infamy, ignorant of law, ignorant of manners, ignorant by open practice of anumber of unprincipled acts, he is as unfit for judicial position as any man, who by possibility could name.

Here is what Judge Whipple of the Grant wing of the party says:

So far as Daniel H. Chamberlain is concerned, I regard him as most unfit for such a position. His recent ascent, were he to make his advent in the state, he would incur the displeasure of his satanic majesty.

There seems to be a little ahead of the gentleman from Maine in the race for the nomination.

Henry's model Arcadian village will probably be placed near Sheffield, England. Upwards of \$3,000 has been subscribed towards it.

E. D. Winslow is the sixth member of recent Massachusetts legislators who has committed felony—Bardwell, Best, Judd, Pond, and one more, being the others.

There should be a suspension of public opinion in this country touching journalism. Winslow and Deacon McKee write both newspaper men, but they were not editors.

HON. ANANIA HAYS, of Alabama, has been selected as the head of the republican congressional committee to manage the presidential contest on behalf of the republicans.

It is believed that the selection of Ananias was appropriate.

The board of the district of Columbia cost \$75,000 per annum. Each member receives salary of \$2,500, and the rate of pay in Washington is the largest of any city in the country.

Speaking of the depreciation of the dollar over the Fall Mail Gazette says: "In Austria and Germany the recovery will be slower than in England or the United States, for the simple reason that their resources of all kinds are less."

It is stated that the papers for the transaction of McKey's stock in the Globe-Democrat were ready several days before his conviction, and that when the fatal blow came, it was immediately turned over to the postmaster from his own means, but only \$2,500 a year when the boxes were furnished by the government. In eight of the principal cities, postmasters will receive, according to the scale prepared, as follows: New York, \$3,000; Philadelphia, \$3,000; Boston, \$2,800; Chicago, \$4,000; and the same amount to Baltimore, St. Louis, Cincinnati, and San Francisco. These amounts are to be paid by the postmaster, commissioning the latter at the following rates: One percent of the receipts of offices receiving from \$5,000 to \$10,000 a year; 9 1/2 of one percent on amounts from \$10,000 to \$20,000; and so on from \$10, 7 1/2, etc., to 2 1/2 of one percent on amounts over \$1,000,000.

Business men are to be a little ahead of the postmaster when his jinking tour. He ostensibly wants to inspect the post offices of foreign arms. He was allowed the full pay and allowances of a brigadier general, inclusive of fuel and quarters in kind, in quantity at the rate and under the regulations at Washington for time; also the actual expenses of travel and hotel bills. He was accompanied by an aide-de-camp with full pay and allowances, and also a quartermaster's clerk with a salary of \$200 per month and all incidental expenses."

Mr. MARSHALL, the first assistant post master general, was before the house committee on post offices this week, and explained the principle by which the department proposed to revise the salaries of postmasters and reduce expenses. Mr. Jewell, in his annual report, treated somewhat at length this subject, and the present proposition does not come from the democrats, but is the result of examination and consideration by the officers of the department. It is proposed to reduce the officers now receiving \$4,000 to \$3,000, to be paid half in salary and half in the sale of boxes, where furnished by the postmaster from his own means, but only \$2,500 a year when the boxes were furnished by the government.

Members of congress will not be elected in October this year. A law of congress requires that they shall be chosen on the Tuesday next after the first Monday in November, which is the day of the presidential election.

The editor of a newspaper in Lyons, France, has been arrested and confined a few hours in that city because he issued a freedom of speech ticket. The result of the trial will be watched with great interest in India.

The carriage in the Boston procession, on the occasion of the Bunker Hill celebration last June, which attracted most attention, was occupied by Lieutenant General W. T. Sherman, General Irvin McDowell, Col. J. C. Averell, and E. D. Winslow, the fugitive forger.

The Russians are evidently getting down to some tough work in Kholkand, where they now come in contact with the Kholkand, the Yenisei, and the Kholkand. The active force of Russia in Turkey is not long along was 60,000 men, 3,000 horses, and 30 elephants. The garrison number 30,000 men.

It is stated that Gen. Robert Patterson, of Philadelphia, has been selected as orator of the Mexican veterans, who will celebrate the centennial at Philadelphia the fourth of July, Gen. Patterson had come from the country, which certainly has not strengthened, him with the politicians—New York Tribune.

This whirling of time brings around its course. Twenty five years ago the emperor of Austria was straining every effort to fair excuse for cutting the head of Francis Desak; to-day the emperor writes a letter of high-strung policy, lamenting the death of Desak as a national calamity.

The British ships during the late election of Desak.

The Channel Tunnel.

PARIS, February 4.—The international committee on the channel tunnel has decided to proceed with the work.

The Committee to Report in Favor of the Texas Pacific.

Speculations About the Democratic National Convention.

Gov. Chamberlain's Management of his Legislative Measures.

Long Count and Short.

London, February 4.—Rev. Alexander G. McConkie, curate of the "High Church" at Albans, sends to the newspaper to document his claim that the government should have been sold at par, and that the expenses of their sale, were not covered by the proceeds of the bonds.

Speculations About the Democratic National Convention.

Gov. Chamberlain's Victories.

The COTTON BUREAU.

On motion the house adjourned until 10 A. M., Saturday.

Amusements.

COMING EVENT OF 1876.

JOHN E. FULTON, MANAGER.

Victoria C. Woodhull.

The Beautiful, Talented and Accomplished QUEEN OF THE ROSTROUM,

Will deliver her New and Startling Oration,

The True and the False, SOCIALLY;

Wednesday Evening.

February 6, 1876.

At 8 o'clock. Doors open at 7.

Admission 50 cents. Reserved seats \$1. Seats can be secured in advance at the usual places.

Now Advertisements.

RUPTURE AND ITS RADICAL CURE.

By DR. MARSIS' RADICAL CURE TRUSS.

THE CITIZENS of Atlanta and surrounding country, who are so unfortunately afflicted, now have the opportunity to procure the most valuable appliances, and to relieve the suffering of their families, by the use of the new and improved RADICAL CURE TRUSS.

The second was in contraining the waist and means committee to adopt his recommendations for a reduction of expenses, and so reduce the state tax for the support of the church, and the other fair, representative men, included, most if not all who have been subjected to ecclesiastical prosecution, disclaiming connection or sympathy with any, even the most fanatical of the church.

Another cool and still possessed GEORGE T. SIMMONS, who has been made public, argues that the ecclesiastical power has the right to demand the life of any man, who has committed a capital offense, and that he should be sold at par, and that the expenses of their sale, were not covered by the proceeds of the bonds.

The COTTON

The Minneapolis Tribune declared this to be a veritable day of "opposition" to the city of Atlanta, and the city was forced to leave. The Georgia legislature, in its session, passed a bill to prohibit the city from doing so.

It came down from the back-state some pleasure to find a hand-made girl from a village just suited to my taste.

Her round necks and rolling eyes like apples pierced my breast, and her hands clasped the body of a white man lying near the track. The train was stopped and it was found to be the body of a man by the name of John, who had frozen to death. It was the intense cold of strong drink the day before when he left Carrollton, late in the afternoon.

HAMILTON.

—Erison Smith, of Batavia district, shipped 150 rails in one load to the John Johnson's plantation. The pipe is in Dr. Walker's possession, where antiquities will have an opportunity of examining it.

—The train from the Savannah, Georgia and North Alabama railroad, was veering its way from Carrollton to Griffin yesterday morning, and when about two miles from the former, it was derailed by the body of a white man lying near the track. The train was stopped and it was found to be the body of a man by the name of John, who had frozen to death. It was the intense cold of strong drink the day before when he left Carrollton, late in the afternoon.

—HAMILTON.

—The wheat and oats in all sections of the country are very fine indeed. They are unusually high to hide a full grain rabbit.

—John Johnson killed a crane last Thursday near town, measuring 5 feet 4 inches high, and 3 feet 3 inches from tip to tip.

—The wheat and oats in all sections of the country are very fine indeed. They are unusually high to hide a full grain rabbit.

—Richard Cardwell, son of Mr. Ansell Cardwell, was killed last Saturday night, at 9 o'clock, by Henry Kenney, a negro.

—A farm boy living Wisdom's store killed his hens last week, one of which weighed 200 lbs., and the other 420 lbs. The pigs were but little over a year old.

—Mr. Jenkins informs us that in fifteen years he has caught and sold one grizzly bear, the wild boar. His dogs outran and caught a buck, the horns of which had eleven points.

—We have been informed that a valuable goldmine quarry exists on Judge Appleton's farm, but the owner of the stones have been cut from it, and they are of very superior quality as to grit.

—JONESBORO.

—Bob McLean, Sheriff, it is confirmed, that George Hopkins has resigned his judgeship, or the spring trials would not have opened so early.

—The Jemison fish ponds are in a flourishing condition in winter. Some of them are more than a mile in water than they were last summer. —News.

—NEWNAN.

—We are in inquire what Newnan farmer planted 40 acres in millet, 25 in gourds and twelve in potatoes last year and sold the whole produce for \$26.00 per acre.

—Reports from the county indicate that there will be a much larger area than usual planted in grain this year. A great deal of wheat and oats was sown last fall, and the yield of oats will also be large. The wheat and oat crop is quite promising at this time. Corn will be largely planted the coming spring, and "King cotton" fails to lose its hold.

—When a Newnan attorney becomes absorbed in his legal studies, he does not allow himself to be interrupted by trivial matters. For instance, Mr. Thompson, the attorney, has a strict aversion of the other day, and did not discover that by some means his hat had caught fire, until a large part of the crown had been melted out. However, it is barely possible that Thompson was asleep.

—TOCCOA.

—On last Saturday, at two colored men were on their way to Toccoa (one of whom was a minister of the gospel), when they were stopped by a man who was the pastor of a church in Atlanta, for several years; they were met about one mile from town by a couple of white men who were in a wagon; when they were in the wagon, they were told to get out, and when they did, the colored men asked them and asked if they were in pursuit of labor, and, upon being informed that they were not, one of the men in the wagon remarked, "You are colored men, and you are not fit for work, I suppose." "No, sir," replied the colored man, "we haven't got plenty; but I am a minister, and I have a wife and three children, and I have got to support them, and if this one of the wagoners asked him if he was a minister of the gospel, and upon being answered, 'Yes,' the colored man asked the colored brother, who would pray for him. For some time the preacher doubted the sincerity of his response; but at length he told the colored man to get out of the wagon and knock down, which he did; and while they all kept them up in the road, the colored man, who was the pastor of the church, for the salvation of the soul, after which one of the white men handed the 25 cents, and the preacher went on his way rejoicing, feeling it a great honor to be a minister.

—The city of New Orleans is now under the absolute control of King Carnival. Having ordered the police to be closed on February 29. Mardi Gras, the postmaster announces that the order shall still live.

—There is said to be little agitation for women's rights in Nevada, where man's rights include the right to tramp around in deep snow, work in 1,500 foot levels, and wield a hammer on a slippery road in a half storm. —Boston Times.

—"If you do mean, you little rascal," I said to an individual to an innocent young lad who had seized my arm, "I am nothing—only I am going out to seek my fortune, and my father told me to seize hold of the first thing that turned up."

—SUMMARY OF STATE NEWS.

—AMERICAS. —The police has been reduced to 100,000 men, to be marshaled.

—Any farmers throughout this section have made considerable headway preparing their corn and cotton lands—Republican.

—AUGUSTA.

—Thomas Kelly, a partially insane man, about fifty years of age, applied to Mayor Estes for a pass to Atlanta. He was to go to the city to pray for the city due to the amount of the value of the pass. The coveted document was furnished him—Constitutionalists.

—ATHENS.

—A wild turkey, a turkey and a red fox were killed in this country last week by W. W. Brittain—Georgia.

—BIRMINGHAM.

—Friday night, the 11th inst., the 8th anniversary of the Barnesville literary society of this place, will be celebrated at a public meeting at their hall. Mr. John F. Hunt will deliver an address.

—BIRMINGHAM.

—The ladies of the society, of the Baptist church, in this place, have come with their own funds, carried the aisle of their church, in front of the pulpit. It has a very lady-like, neat appearance. If it were not for the ladies aid society of the Methodist church and the society of the Baptist church, we do not know what would become of the brethren and the rest of us.

—A few days since a nice lady got the Macombe bound train and left in peace, and when she got to the station, a report was made that her father, Mr. W. W. Brittain—Georgia.

—BIRMINGHAM.

If it were not for the ladies aid society of the Methodist church and the society of the Baptist church, we do not know what would become of the brethren and the rest of us.

—A few days since a nice lady got the Macombe bound train and left in peace, and when she got to the station, a report was made that her father, Mr. W. W. Brittain—Georgia.

—BIRMINGHAM.

—The ladies of the society, of the Baptist church, in this place, have come with their own funds, carried the aisle of their church, in front of the pulpit. It has a very lady-like, neat appearance. If it were not for the ladies aid society of the Methodist church and the society of the Baptist church, we do not know what would become of the brethren and the rest of us.
